Readability concerns:

- '(00g)': text height below threshold vs. largest text on label
- '54g': text height below threshold vs. largest text on label
- '(2)': text height below threshold vs. largest text on label
- '6.5': text height below threshold vs. largest text on label
- '130.36': text height below threshold vs. largest text on label
- '100g': text height below threshold vs. largest text on label
- '7:24': text height below threshold vs. largest text on label
- '241.40': text height below threshold vs. largest text on label
- '2%': text height below threshold vs. largest text on label
- '13.41': text height below threshold vs. largest text on label
- '43.97': text height below threshold vs. largest text on label
- '4.10': text height below threshold vs. largest text on label
- '3.41': text height below threshold vs. largest text on label
- '2.01': text height below threshold vs. largest text on label
- '6.51': text height below threshold vs. largest text on label
- '0.71': text height below threshold vs. largest text on label
- '1.32': text height below threshold vs. largest text on label
- '0.00': text height below threshold vs. largest text on label
- '0.20': text height below threshold vs. largest text on label
- '0.49%': text height below threshold vs. largest text on label
- '2,000': text height below threshold vs. largest text on label
- '08009110591': text height below threshold vs. largest text on label; low OCR confidence (66.0%) - likely hard to read
- '31,': text height below threshold vs. largest text on label
- '400': text height below threshold vs. largest text on label
- '072': text height below threshold vs. largest text on label
- '(M1)': text height below threshold vs. largest text on label
- '11522998000168': text height below threshold vs. largest text on label
- '(M1)': text height below threshold vs. largest text on label
